## Air Purification Devices

Dear Mr. Jasseb,

Thank you very much for the prompt and reliable installation of your air purification devices, which you initially provided to us on a trial basis and which we have since purchased.

We are very satisfied overall with the ceiling installation and the operation via the app. The devices are elegant, feature an appealing design, and integrate seamlessly into office or meeting room environments, enhancing their aesthetic appeal.

We would especially like to express our gratitude for your courteous and prompt service, as well as your flexibility and reliability in planning and executing the installation.

We look forward to continuing to rely on your customer-oriented service in the future, whether for the maintenance of our current devices or the potential acquisition of additional air purification systems.

Kind regards,  
DB Systemtechnik GmbH
